SUMMARY

Backend engineer with 7 years building payments and billing systems at scale. Comfortable owning a service end to end, from schema design to on-call.

EXPERIENCE

Zeta Payments - Staff Software Engineer

Bengaluru | February 2023 - Present

- Led the rewrite of the settlement ledger, cutting month-end close from nine hours to under twenty minutes.
- Designed the idempotency layer now used by every payment write path.

Flipkart - Senior Software Engineer

Bengaluru | July 2020 - January 2023

- Owned the seller payouts service through three Big Billion Days peaks.
- Moved reconciliation from nightly batch to streaming on Kafka.

Infosys - Software Engineer

Bengaluru | July 2019 - June 2020

- Built internal reporting tooling for a retail banking client.

EDUCATION

B.E. Computer Science, RV College of Engineering, Bengaluru - 2019

SKILLS

Go, Python, PostgreSQL, Kafka, Kubernetes, AWS, Terraform
